

March 24, 2025

Rise and shine, I.S.201! This is William Chen of class 752 speaking to you for today's Motivational Monday on behalf of the S.E.A.L Team.

Today is March 24th, otherwise known as the International Day for Achievers! This day is used to honor and pay homage to the people who have made contributions to different fields in society. Some common examples of achievers today are doctors, scientists, professors, activists, or any innovator who has made a difference in our world. And even the people who aren't famous or widely known can count as achievers. Anyone no matter race, gender, level of education, or social status can become an achiever, no matter how big or small of an impact you make. This is your sign that you can achieve greatness whenever and wherever, no matter when you start or where you start. You can even start today by just developing a small hobby or improving in something you already have a passion for.

Thanks for listening and have a Meritorious Monday!
